

... and a message from or about her vagina to the world.

"Dear Vagina, at first you were playful fun without me having any understanding of what you were. Then for quite a while you were mysterious and unknown, and I didn't know why, but I wasn't comfortable knowing you too well. Then we became friends and have been growing ever closer since. I'm glad that I know you."

"Cunt is not a dirty word"

"Strolling into a near-stranger's home, taking off my pants and willingly having my vagina photographed, is a scenario I had never pondered, nor expected to fancy. Until now. To my own surprise, I lunged at the invitation to drop my dacks for a coffee table book and write an accompanying memo. All this unrealised appreciation for The Vagina – My Vagina – surfaced."

"Eat me!"

"I call my Vulva different names depending on the mood I'm in. Often, she's 'Yoni', when I'm in a sensual, Tantrika mood, when I'm feeling playful she's 'Pussy', and when I have attitude I call her 'Cunt'. I love to move from her, as if she were directing every movement of my body, enticing everyone around me. This is when I feel my most sensual, my most sexual. Sometimes she has hair, sometimes she doesn't. I have quite a good relationship with my pussy; I have a porcelain sculpture of her that sits proudly on my shelf. I'm glad she could be in this book."

"My vagina is currently 'zzzzzzzzzzzz' after years of work and now enjoying the rest and solitude it is experiencing."

"Taking a little more time than usual to glance down and ponder, I'd like to say simply this: my vagina represents life, pleasure, power and practicality. Plus, in this instance, art, education... and a bit of a giggle. This small, mostly hidden, biological instrument of the feminine intrigues and amazes. I give my thanks and respect to all of them. <3 V."

PARTICIPATE!

1. Get yourself **photographed** and write your message for inclusion in the book; or
2. **Write** about a vagina related experience for inclusion in the blog section of the website:
